

**Client**  
Leeds Bradford Airport

**Discipline**  
Creative

**Description**  
Leeds Bradford Airport was concerned people were unaware of the vast number of locations you could get to from the regional airport and asked Manifest to come up with an advertising solution. They also asked us to come up with ideas to promote the ever developing nature of the airport.

**Execution**  
Simple tasks, simple solutions. Show iconic location across the globe along side some local landmarks and ask the customers to put two and two together. If you want to get your message across why not use a message board? Both campaigns may have varied in look, but the underlying messages were both clear, simple and effective.
